2024 Editorial Calendar

Winter 2024: Light
Dec-Jan-Feb
Closing: September 28, 2023

Light is associated with brightness, weightlessness, and the human spirit. In this issue we showcase objects that shimmer, handcrafted lighting, and craft fashioned from lofty materials. We discover what lights artists up, how craft illuminates our homes and lives, and how a well-loved object can brighten our days.

Appraisals
Lighting

Spring 2024: Ritual
March-April-May
Closing: December 14, 2023

Craft fills our lives with meaning and purpose. We explore how—from a ceramic tea set to a handwoven hammock to an elegant wooden bathtub—it enhances rituals around food, play, and self-care. And we reveal how craft elevates ceremonies in different cultural traditions, including spiritual practices, weddings, and other community gatherings.

Summer 2024: Savor
June-July-August
Closing: March 28, 2024

Summer is the time to enjoy. So in this issue we focus on craft that helps us appreciate memorable moments—whether a leather satchel for travel, glasses for lemonade, a set of hand-forged tools for harvesting garden produce, or furniture for relaxing. We show what makers and artists need to sink into work in their studios and how craft lovers relish the fruits of their labor.

Fall 2024: Weave
Sept-Oct-Nov
Closing: June 20, 2024

Weaving brings materials—and people—together. Whether it’s clothing that provides warmth and beauty, handwoven textiles that create a welcoming home, baskets that carry important things, or the way new ideas emerge when people partner up, we explore the ties that bind, patterns that thrill, and the strength that comes from synthesis. This issue also includes profiles of artists and others honored as 2024 American Craft Council Fellows.

Winter 2025: Interior
Dec-Jan-Feb
Closing: September 26, 2024

This issue reveals craft’s influence on interior spaces, exploring the way handcrafted furnishings, fixtures, and fittings help make our homes our own, and how ideas conceived in creative minds shape the way we live. We share the profoundly personal and the hidden treasures—from the meditation room behind a hand-carved door to the pattern at the bottom of a ceramic vase, from the secret kept in a locket to the way makers think through craft.

Material Specifications

File Formats
Press-ready PDF files strongly preferred. Flattened JPEG or TIFF files also accepted.

All ad files MUST have:
• All fonts embedded
• Page geometry defined and consistent (trim, 1/8 in. bleed where applicable, and media/art boxes)
• CMYK color space (Coated GRACol 2006 profile preferred)
• Image resolution at least 300 dpi
• Bitmap image resolution between 600 and 1200 dpi
• 100% K for black type
• Rich black for larger solid black areas (40 C / 40 M / 30 Y / 100 K)

All ad files CANNOT have:
• Calibrated RGB, LAB, ICC-based color
• Form fields
• Interactive elements such as movies, sounds, buttons, hyperlinks, and annotations
• OPI comments
• Layers
• Transfer functions
• Actions or Javascript
• Security settings or encryption
• Preseparation

Email
Ads sent electronically must include a PDF attachment. Large files may be transferred via FTP.

Furnished Images
300 dpi required for all images. CMYK with Coated GRACol 2006 profile. All elements in RGB or spot color must be converted to CMYK. Further information: swop.org

Line Art
TIFF (bitmap) or EPS format between 600 and 1200 dpi required for logos, illustrations, etc.

Proofs
Only a contract-level proof (Kodak Approval, FinalProof, Matchprint, PolaProof) provides an effective guide to color reproduction on press. Laser and inkjet printouts, while informational, are inadequate references for color.

Type Reproduction Tips
Thin lines, fine serifs, and lightweight or very small type should be restricted to one color. Reproduce all colored type with a minimum of colors. This diminishes undesirable effects off-register and color variation inherent in web offset printing.

Reverse type and line art should not be less than .007 in. (1/2 point rule) at the thinnest part of a character or rule.

Reverse (knock-out) type should use a dominant color (usually 70 percent or more) for the shape of letters. Where practical, and not detrimental to the appearance of the job, make the type in subordinate colors slightly larger to minimize register problems on the production press. Small type and fine serifs should not be used for reverse type. The surrounding tone must be dark enough to ensure legibility.

Reverse (knock-out) type whose image is produced by removing image from background should use the dominant background color (usually 70 percent or more) to form the shape of letters. When practical, spread the type in the other colors (making it slightly fatter).

Small type and fine serifs should not be used for reverse type.

The tone surrounding type must be dark enough to ensure legibility.

Overprinted (surprinted) type should not be less than .004 in. (1/3 point rule) at the thinnest part.

When overprinting solid type, the background should be no heavier than 30 percent in any one color. If the background is made up of more than one color, the combined colors should be a maximum of 90 percent.

American Craft assumes no responsibility for color reproduction in the absence of a contract-level proof.

American Craft takes no responsibility for ads that fail to adhere to these standards.
